

**1ST FLOOR**  
**1/4" = 1'-0"**

**NOTES:**

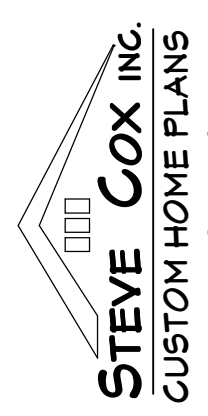

All plans have been checked for accuracy. However it is the responsibility of the builder and framer to confirm all measurements. All dimensions have been rounded to the nearest inch to maintain plan appearance. Framers should use discretion when centering is required. When door locations are not specified, this typically requires door to be centered or spaced at least 3 studs from a corner. Framers should consult builder/foreman for exact casing size. Confirm all local building codes before construction begins.

**SQUARE FOOTAGE:**

1st Floor Heated	2250
Bonus Floor Heated	312
Total Heated	2562
Front Porch	177
Rear Porch	225
Garage/Storage	566
<b>Total Under Roof</b>	<b>3530</b>

**PROJECT:**

**Summer Residence**
